Instability in the Lionhead Range

Date
Sat, 12/16/2023 - 05:05
Activity
Skiing

Widespread wumfing between 7,000 - 8,700ft. in Targhee Creek. (12/15)

No natural slides observed.

Crazy large surface hoar also observed on open, southerly clearings, measured 1+ cm. Very rotten snowpack otherwise.

Region
Lionhead Range
