

Small natural activity in Beehive

Beehive Basin
Northern Madison
12/25/2020
Code
Latitude
45.34070
Longitude
-111.39100
Notes

From email: "Today we saw a small avalanche that came out of the rocks lookers left of the 4th of July [Couloir](#), too far away to give any details, just a small debris pile. I don't think it was there yesterday, but I could have missed it. We also saw some very small point releases and roller balls on steep south facing slopes."
