Activity

Skiing

Witnessed two huge whumpfs while skinning a NE aspect around 7600' en route to regaining the main skin track ridge. Both whumpfs shook the snow off trees within a 100 yard radius. We didn't dig a pit as we knew the snowpack was unstable so we played it safe and stayed out of steep terrain.

Region

Southern Madison

Location (from list)

Bacon Rind

Observer Name

Austin Mallet
