## **Cooke City, natural avalanche activity**

Date Wed, 03/06/2024 - 15:55

From email: "Natural avalanches observed near Cooke City today. At least 3 big PWL/ deep <u>slab</u> avalanches. All northerly aspects, mid elevations.

Also, observed one upper elevation north facing <u>slide</u> that looked more like a storm <u>slab</u>."

Region Cooke City Location (from list) Republic Mountain Observer Name Beau Fredlund
