

Natural Avalanche Argentina Bowl

BRIDGER RANGE

Bridger Range

1/4/2025

Code

N-R2-D2.5

Elevation

8600

Aspect

NE

Latitude

45.85120

Longitude

-110.94800

Notes

With decent visibility we drove up Bridger canyon to Battle Ridge to look for recent avalanches. The most noteworthy was a [slab](#) 500'+ wide, 2'+ deep in Argentina Bowl (photo), and there was an R1-R2 sized debris pile below the Saddle Peak cliffs, but clouds obscured the top of Saddle.
