

Recent avalanche activity in Cedar Basin

Cedar Mtn.

Northern Madison

1/24/2025

Code

SS-N-I

Aspect Range

N-NE

Latitude

45.22680

Longitude

-111.51200

Notes

Recent avalanches noted on the NE-E aprons on cedar mountain. SS-N-R2-3-D2-I These appeared to have possibly happened during the last storm cycle and looked to be isolated to layers within the new old snow interface. I also noted similar activity on the same aspects on the adjacent ridge during our approach.

Number of slides

3

Number caught

0

Number buried

0
