Natural and Snowmobile Triggered Avalanches at Lionhead

Lionhead Ridge Lionhead Range 2/4/2025 Code SS Latitude 44.71450 Longitude -111.31800

Plenty of wind slabs ranging in size on Lionhead ridge and on surrounding slopes. Noticed a few natural slides on the way in, a few more on the way out that were rider triggered. Snow was quite wet by this afternoon @8500'.
